Subject: screen shots of the folders and documents under the shared NRC NHPA Documents folder
Attachments: OneDriveNRC_NHPA_ScreenShots.pptx

Hi Matt,

I am so sorry you are having trouble with this folder on my One Drive. I have attached the screen shots of the folders under the NRC NHPA Documents. I will start working on creating zip files that contain all the documents.

In summary, the link should take you to the NRC NHPA Documents folder which contains these 4 folders:

1. The ASLB folder contains documents related to the Atomic Safety & Licensing Board review of the appeals against the NRC process.
2. The Powertech Docs folder contains documents from Powertech's Environmental Report submitted to the NRC which is the original info NRC used to develop the Supplemental Environmental Impact Statement. I copied excerpts relevant to the NHPA 106 process.
3. Unfortunately, I created 2 Programmatic Agreement Folders. The second one contains the Programmatic Agreement NRC developed as part of their "tiered approach" to the NHPA 106 process. The process is still underway. I also included the cover letter from the ACHP for their signature page for the PA.
4. The SEIS folder contains the two volumes of the Supplemental Environmental Impact Statement that NRC developed for the Dewey-Burdock Site. I extracted the sections relevant to the NHPA process.

I would start with the SEIS folder documents in order of the Section numbers (included in the file names) because that info does a good job of summarizing all the NRC NHPA 106 activities.

Then I would go to the ASLB folder because those documents explain the contentions against the NRC process, the ASLB decision and the appeals of the ASLB decision. You get an ideas of what the intervenors think the deficiencies in the process are.

I hope this helps you get to the right place.
